Re:- Planters around Hartlebury

Over the past years the Parish Council has made, a much appreciated, donation for the upkeep and maintenance of the many planters around our village. Due to the pandemic no donation was received last year. The last donation was £250.00 in 2019. However the club volunteers did provide planting last year, and this year we have spent £212.00 on compost and plants.

The Gardening Club have not been able to hold meetings over the past year and so membership fees have been reduced to reflect this.

Would you please give this request your full consideration as a donation from the Parish Council will be of great help.

Yours sincerely

Stuart Courier (Treasurer)
