

Digital Comms and Data Protection Advisory Group Minutes

Meeting date: 26 November, 2024

Present: Cllrs A Scheps, C Neale, J Hellens and K Arnott

It was decided that all members of the group would be present for the training by Atec when the system is installed. This will provide backup for the weekly checks in case somebody is out of town.

After over a year of Cllr Scheps being webmaster, it was decided that Cllr Hellens would be shown how to perform the webmaster duties and eventually take over that role with support from Cllr Scheps.

Cllr Neale agreed to continue to be in charge of social media and News item posts on the website.

It was resolved to submit three quotes for consideration to purchase live-streaming equipment. Up until now we have been using Cllr Scheps' equipment which is not viable for the long term.

It was noted that at the November meeting, the Hartlebury Hero award recipient would most likely draw quite a few people to the live stream.
